COURSEWORK

UNDERGRADUATE
Computer Communication & Networking*
Computer Graphics*
Object Oriented Analysis & Design*
Operating Systems*
Computer Programming in C
Data Structures & Algorithms
Digital Design & Computer Organization
Engineering Mathematics-I
Engineering Mathematics-II
Mathematical Foundations of IT
Paradigms of Programming(JAVA)
Unix Programming and Practice
*Current coursework

SKILLS

PROGRAMMING
Angular2 • C • HTML • iOS • Java
JavaScript • Python • Swift
Frameworks:
Django• Flask
Familiar:
C++ • Ruby • MySQL

PROJECTS

TRAVEL APP | 9 July 2016
- Link:**https://github.com/aimananees/Travel-App**
- An iOS app that access the current location and provides the basic information a person needs when he visits a new place.
- Features:
